# DISTRICT REPORTS ON WEATHER AND CROPS.

## For the week ending on the 29th April 1925.

Summary.—During the week the rainfall was generally moderate to heavy. It has benefited the tanding crops and the agricultural operations generally in West Bengal, while in East and North Bengal excessive rain has interfered with the sowing and weeding of jute and paddy, especially in low land tracts. The average price of common rice for the province has risen by about 0.39 per cent. as compared with that of the previous week.

# Object for which the institute is established.

The Weaving Institute has been established with the object of giving technical instruction in the best and latest methods of hand-weaving, of extending a knowledge of the mechanical improvements which make the modern hand-loom so vastly more effective an instrument than the primitive looms still widely used by weavers in Bengal, and so of strengthening and reviving the weaving industry in this country.

With these objects in view two distinct grades of instruction are given, forming

higher and lower classes, respectively-

- (1) To young men of fair oducation, who may be trained as teachers, managers and organisers of the weaving industry. These form the higher classes;
- (2) To actual hand-loom weavers. These form the lower or artisan classes.

The institute is staffed and administered by the Bengal Government. It is managed by the Principal under the general control of the Director of Industries, Bengal.

CALCUTTA, THE 6TH MAY 1925.

# RESOLUTION -- No. 246T.-A.I.

In 1918, the Government of Bengal approved the proposal for the establishment of a Government Research Tannery in Calcutta and appointed a committee consisting of five members, which eventually came to be known as the Board of Directors of the Calcutta Research Tannery, for the purpose of advising and assisting the Director of Industries in the management of the Tannery, without any limit of time as to the term of office of the members appointed. The Board was reconstituted in 1921 with the same number of members.

- 2. The Tannery being a technical institution dealing with problems arising in the tanning industry, it has been considered desirable to reconstitute the Board again on a more popular basis with a view to securing the representation on the Board of men directly associated with the tanning and hide industries in Bengal. The Government of Bengal (Department of Agriculture and Industries) are accordingly now pleased to reconstitute the Board with the following members:-
  - Director of Industries, Bengal, Chairman.
     Dr. Sir Nilratau Sarkar, Kt., M.D.

  - (3) Mr. L. B. Sutcliffe of Messrs. Bird & Co., Calcutta.
  - (4) Mr. Dost Muhammad of 10, Damzen Lane, Calentta.
  - N. C. Hutton, of the l'engal Tanueries, Limited. (5)
  - (6) Director of Industries, Bihar and Orissa.
- 3. The members (other than those appointed ex officio) will hold office for a term of two years.

ORDER .- Ordered that the Resolution be published in the Calcutta Gazette and that copy be forwarded to the members of the Board and to the Director of Industries, Bengal, for information.

By order of the Government of Bongal

(Department of Agriculture and Industries),

G. S. DUTT,

#### Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1924-25.

[Notz.—On an average of the five years ending 1992-23, the area under lineed in Bengal has represented some 4:5 per cent., and that under rape and mustard 15:9 per cent. of the total area under these crops in British India.]

Character of the season.—As reported in the preceding forecast, the weather during the early stage of the crops was not generally favourable. Dry weather during the month of December, however, improved the prospects, but occasional untimely rain with hail between January and the middle of March adversely affected the mature crops to some extent. Subsequently dry weather was helpful to the harvesting of the late crops. On the whole the season has been a fair one for the crops this year.

Acreage.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum, for which separate forecasts are issued) is returned at 884,600 acres this year as against 882,500 acres in the corresponding forecast of last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 75 per cent, of the normal as against 72 per cent, in the corresponding forecast of last year.

Taking 5% mannds as the normal rate of yield per acre for linseed, 6 mannds for rape and mustard, and 41 mannds for other oilseeds, the total yield of the crops for the province is estimated at 144,000 tons this year as against 137,800 tons last year.

R. S. FINLOW,
Director of Agriculture, Bengal.

## DISTRICT REPORTS ON WEATHER AND CROPS.

## For the week ending on the 6th May 1925.

Summary.—During the week the rainfall was generally light to moderate. Field operations for ute and paddy continue favourably in the West Bengal districts. In East and North Bengal the sowing and weeding of jute and paddy are in full swing, but the recent excessive rain has interfered with the operations in places, especially in the low-land tracts. The prospects of standing crops are generally satisfactory except in places in North and East Bengal where young jute and paddy plants have been lamaged to some extent by the excessive rain. The average price of common rice for the province has risen by about 1.98 per cent. as compared with that of the previous week.

# CALCUTTA, THE 18th MAY 1925.

# RESOLUTION-No. 1814Pl.

Revised draft rules under the Indian Poisons Act 1919, were published for criticism in notification No. 1571Pl., dated the 9th May 1924. As a result of the opinions received it was decided that revision of the rules as a whole on more radical lines is necessary, and the following small Committee was appointed to advise on the lines to be adopted:—

Major-General R. Heard, C.I.E., I.M.S., Surgeon-General with the Government of Bengal.

Major T. C. Boyd, F.R.C.S.I., Chemical Examiner to the Government of Bengal.

F. Bartley, Esq., Deputy Commissioner of Police, Calcutta.

A. Lunan, Esq., Messrs. Bathgate & Co., Calcutta.

Narayan Chandra Bose, Esq., Messrs. B. K. Paul & Co., Calcuttal.

The rules have now been redrafted in accordance with the recommendations of this Committee and are published again for criticism. Their main feature is that poisons are now divided into three categories subject to different degrees of restriction, on the lines of the practice in the United Kingdom. The full restrictions under the old rules only apply to the poisons included in Schedule I; and this list has been extended in accordance with technical advice. It includes opium and other poisons which are subject to the Excise law and which are treated as poisons in the United Kingdom. It is not, however, intended to establish dual control over the custody of such poisons under the Poisons Act as well as the Excise law. Licenses under the Poisons Act will be granted to all persons duly authorised by the Excise authorities to possess excisable commodities, and the only control over the possession of these poisons will be that at present established by the Excise Department.

Certain changes in detail have been introduced with a view to meeting the convenience of chemists. For instance, no stock register is now required for the consumption of poisons issued to a chemist's dispensary. It is proposed to restrict the grant of licenses under the Poisons Act in future to persons holding a compounder's hoense or employing licensed compounders, but discretion is left to the licensing officer to felax these qualifications for special reasons. The difficult question of patent medicines has been dealt with by placing in Schedule II all patent medicines which contain poisons enumerated in Schedule I, so that the fact that a patent medicine contains a poison will, not necessitate an unnecessary degree of precaution in handling it. It has also been made clear that the detailed restrictions in these rules apply only to the retail trade.

ORDER.—Ordered that this resolution be published in the Calcutta Gazette.

By order of the Governor in Council,

L. BIRLEY,

Chief Secretary to the Government of Bengal.

PRESIDENCY DIVISION, CALCUTTA, the 12th May 1936.

No. 2086 G.—Under section 13 of the Bengal Village Self-Government Act (Act V of 1919), read with rule 39 of the rules for the election and appointment of members of union boards, the District Magistrate of Tippera has appointed Babu Radha Charan De to be a member of the Paharpur union board, police-station Muradnagar in the district of Tippera, in place of Jagat Chandra Bhomick, resigned.

J. N. ROY, Commissioner (offg.).

CHITTAGONG DIVISION, CHITTAGONG, the 12th May 1925.

# NOTIFICATION.

READ letter No. 1278L.S.-G., dated the 5th March 1925, from the District Magistrate of Burdwan to the address of the Chairman of the District Board, Burdwan, bringing to the notice of the Board certain acts of grave misconduct on the part of the President of the Eral union board, Babu Bisseswar Raja.

Read also the proceedings of a special meeting of the Eral union board held on the 16th March 1925.

Read also letter No. 191V.S.-G., of the 21st April 1925, from the Chairman of the Burdwan District Board.

### Order.

I have considered the views of the District Magistrate and of the District Board in this matter. There can be no doubt that the President, Babu Bisseswar Raja, has been realising illegal gratification from the chaukidars and dafadars of the union. The majority of the members of the union board, far from showing their disapproval of such conduct, have supported him in it by refusing to allow him to resign when called upon by the District Board to do so. I hold that the Eral union board is not competent to discharge its duties, and under section 56(1)(a) of the Village Self-Government Act, I remove the President, Babu Bisseswar Raja, from his office both as President and as member, Eral union board.

#### Final Forecast of the Wheat Crop of Bengal, 1924-25.

[Note —On an average of the five years ending 1922-23, the area under wheat in Bengal has represented some 0.4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) the territory now reported on has, in the five years ending 1922-23, averaged (a) 45.2 and (b) 14.1 per cent., respectively.]

Character of the Season.—As indicated in the preceding forecasts, the conditions were favourable, on the whole, up till the end of December. Later on occasional heavy showers during the mouths January to March, accompanied in places with hail, seriously damaged the mature crop especially in the important district of Malda which contains more than one third of the total area under wheat in the province. On the whole, the season has been unfavourable for the crop.

Acreage.—According to District officers' estimates, the total area sown is 126,400 acres this year as against 120,400 acres last year.

Outturn.—The provincial outturn, as worked out from district estimates, is 64 per cent, of the normal as against 62 per cent, last year. Taking the normal yield to be 81 maunds per acre, the gross yield of the crop for the province is estimated at 24,800 tons this year as against 22,900 tons last year.

At the end of April the average wholesale price of wheat at the principal marts of the province was Rs. 6-4-6 per maund, or about 24 and 19 per cent. higher than the prices ruling at the corresponding periods of last year and the year preceding respectively. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 7-0-7 per maund, or about 23 and 22 per cent. higher than the prices ruling at the corresponding periods of last year and the year preceding respectively.

#### DEPARTMENT OF AGRICULTURE, BENGAL.

#### Monthly Weather and Crop Report of Bengal for April 1925.

- I. Character of the season.—The weather was dry during the first week of the month, after which precipitation became general throughout the Presidency and heavy in parts of North and East Bengal. The usual rainfall statement is appended.
- II. Progress of agricultural operations.—The dry weather in the beginning of of the month delayed sowings of jute and paddy. These operations were facilitated by the good subsequent rainfall except in places of North and East Bengal, where excessive rain caused further delay especially in the low land tracts.
- III. State of standing crops.—The condition of standing crops was generally satisfactory in East and North Bengal, while in West Bengal it was only fair.
- IV. Prospects and probable outturn.—The prospects of sugarcane, til, jute and paddy were generally hopeful.
- .V. Damage to standing crops.—Damage to young jute and paddy plants is reported to have been caused by excessive rain in parts of some low land tracts of North and East Bengal.
- VI. Condition of agricultural stock.—The condition of live-stock was, on the whole, satisfactory. Stray cases of cattle-disease, however, were reported from parts of Nadia, Jessore, Dinajpur, Rangpur, Dacca, Bakarganj, Tippera and Cooch-Behar and Tripura States.
- VII. Failure of pasturage and fodder.—No insufficiency of fodder was reported from any part of the Presidency.
- VIII. Prices of food-grains.—During the second fortnight of the month the retail price of common rice of the cheapest quality fell in four, rose in eleven districts and remained stationary in the rest of the Presidency. It ranged from 5 seers per rupee at Tippera to 7 seers per rupee at Chittagong.
  - IX. Condition of agricultural population.—The condition of agricultural population was, on the whole, fair.

### RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR ENDING 30TH JUNE 1924.

#### GOVERNMENT OF BENGAL.

#### AGRICULTURE AND INDUSTRIES DEPARTMENT.

Co-operative.

DARJEELING, THE 16TH MAY 1925.

RESOLUTION No. 461 T.-A. I.

READ-

The Report on the working of the Co-operative Societies in Bengal for the year ending 30th June 1924.

Administration.—Rai J. M. Mitra Bahadur held the office of the Registrar till the 10th January 1924, when he left for England to take charge of the Bengal Court of the British Empire Exhibition. Mr. M. Thorp, Deputy Registrar, then assumed charge of the department and held it for the rest of the year. The post of Deputy Registrar was abolished with effect from the 11th January 1924, the date on which Mr. Thorp was appointed The recommendation of the Bengal Retrenchment to act as the Registrar. Committee that the post of Personal Assistant to the Registrar of Co-operative Societies should ordinarily be filled by a Sub-Deputy Collector instead of by a Deputy Collector was given effect to during the year. deferred division of the combined charge of the Presidency and Burdwan Divisions by the appointment of an Assistant Registrar for each was carried out during the year. The new arrangement should facilitate the growth of the co-operative movement in those two divisions, and should enable more effective supervision to be exercised over the societies already in existence. In accordance with the principle that the number of Sub-Deputy Collectors employed as Inspectors should be kept at its minimum, an additional post of departmental inspector was created to fill the place of Maulvi A. M. Arshad Ali appointed Personal Assistant. The question whether a further reduction in the number of Sub-Deputy Collectors employed in the department is practicable is now under the consideration of Government. The proposal for the revision of pay of the subordinate inspecting staff of the department has been approved, and it is proposed to give effect to it as soon as the financial situation permits.

It is gratifying to note that the central banks continue to take over gradually the cost of honorary organisers. While agreeing with the view expressed in paragraph 14 of the report that the work of organisation should be left more and more to extra departmental agencies so far as the credit movement in advanced areas is concerned, Government would reiterate the principle, already accepted by them in connection with the recommendation of the Provincial Retrenchment Committee on the subject, that departmental stimulation will still be necessary not only in developing special types of societies, but also in organising credit societies in areas still remaining undeveloped. At the same time His Excellency trusts that the training of non-official agencies in the work of organisation will be regarded as one of the most important duties of the officers of the Co-operative Department.

2. General Progress of the movement.—During the year under review the total number of societies of all kinds rose from 7,822 to 9,342 and the membership from 292,981 to 340,159, while the working capital increased from Rs. 4,33,63,800 to Rs. 5,07,66,290. It is satisfactory that in the general expansion of the movement the internal improvement of the societies has not been lost sight of: dishonest office bearers have been dismissed, refractory members expelled and steps have been taken for the realisation of bad debts and for splitting up unwieldy societies.

The Registrar again calls attention to the important part which the movement can play in encouraging habits of thrift among the rural population. It would seem that this aspect of co-operation is not yet fully realised by most central banks, and it is to be hoped that no effort will be spared to encourage the poorer classes to make greater use of co-operative societies as depositories for their small savings, thereby not only effecting a permanent improvement in their economic condition, but also making available to the outside world of trade and commerce the accumulated savings of millions of agriculturists during their surplus season which usually coincides with the period of tightness in the money market.

3. Turning to details, co-operative organisations in the province may

be broadly classified as follows:

- I. Primary Societies—
  - (a) Agricultural,
  - (b) Non-agricultural; and
- II. Central Co-operative Organisations.

Steady progress has been made in all these directions during the year under review.

#### (I) PRIMARY SOCIETIES.

#### (a) Adrioultural Societies.

(i) Credit Societies.—Agricultural credit societies constitute 90 per

· cent. of the total number of societies in the province.

The number of this class of societies rose during the year under report from 7,011 to 8,368, their membership from 186,944 to 216,190, working capital from Rs. 1,48,62,021 to Rs. 1.77,89,251, share capital from 7:03 lakhs to 10:27 lakhs and deposits from members from 6. to 7.83 lakhs. While there has been some increase in deposits from members, they still form but a small fraction of the total working capital, the societies mainly depending on central banks and outside deposits. The primary object of a credit society should be the promotion of thrift among its mombers, and the Registrar should take every possible step to inculcate this essential principle on the societies.

Another unsatisfactory feature of the situation is the unpunctual repayment of loans. The collections during the year amounted to 38½ laklis and though the outstandings were reduced from 33.9 laklis to 31.4 lakhs, this formidable sum still constitutes a real menace to the movement. Steps are being taken to effect internal improvement in the working of the societies and to secure closer supervision over their proceedings and His Excellency trusts that the central banks will actively co-operate with the department in carrying through these much-needed improvements.

(ii) Agricultural purchase and purchase and sale societies.—During the year the number of these societies rose from 21 to 22, membership from 4,147 to 4,441 and working capital from Rs. 1,54,641 to Rs. 1,56,161. The profits made by these societies amounted to Rs. 3,620 against Rs. 5,910 in the

preceding year.

It is reported that the Sundarbans Supply and Sale Society, the only society of this type which has hitherto been a marked success financially, made a profit of only Rs. 2,189 against Rs. 10,000 in the previous year. The main reason appears to have been a diminution in the volume of business, which consisted mainly of ordinary store transactions to the neglect of sale of the members' agricultural produce. Moreover, the prices of goods were fixed without reference to the actual cost of establishment and other charges. His Excellency the Governor trusts that this lesson will not be lost upon other societies. He also hopes that the experiments which are now being carried out in the organisation of paddy and jute sale societies in several districts will be attended with success.

- (iii) Irrigation Societies.—This class of societies has developed considerably during the year. Their number increased from 114 to 173 (of which as many as 107 are in the Bankura district alone), membership from 4,689 to 7,376, and working capital from Rs. 77,658 to Rs. 1,29,598. The possibilities of these societies in the direction of solving the difficult problem of agricultural deterioration in the Western Bengal districts are very great. The Registrar roughly estimates that in many areas by means of adequate irrigation, production can be increased by 100 per cent. Moreover these irrigation societies dealing as they do, not only with stream schemes but also with tank schemes are indirectly serving the purpose of anti-malarial societies. Apart from the stream schemes for which there are special facilities in the districts of Bankura and Birbhum, the whole of Western Bengal affords splendid opportunities for the development of tank schemes. Financially these societies have hitherto been most successful and it is hoped that with the increased departmental staff for this class of societies which has now been sanctioned by the Legislative Council, the development of co-operative irrigation movement will be substantially accelerated.
- (iv) Go-operative Agricultural Associations.—The number of this type of societies during the year rose from 11 to 16, but they have not as yet achieved any striking results. A new type of society called the Modern Co-operative Agricultural Association, Limited, was formed in the Presidency Division during the year under report, with a laudable, though ambitious programme. The main object of this society appears to be the solution of the vexed problem of middle-class unemployment by providing an agricultural colony for the middle-classes, with facilities for small plot cultivation and vocational education. The society unfortunately sustained a severe set back through the death of two of its principal sympathisers. Sir Ashutosh Mukherjee and Sir Ashutosh Choudhury. It is, however, hoped that the society will be able to surmount the initial difficulties under which it is still labouring, and its future career will be watched with interest.
- (v) Production and Sale Societies.—Milk Societies.—These societies, which were formerly confined to the Barasat subdivision of the 24-Parganas district, have now spread into the Jessore district. During the year their number increased from 52 to 54, membership from 2,040 to 2,155, share capital from Rs. 1,936 to Rs. 2,774, reserve fund from Rs. 2,580 to Rs. 7,448, and profit from Rs 4,846 to Rs. 11,054. All these societies are members of the Calcutta Milk Union, and their supply is almost wholly consumed in Calcutta. A sum of over a lakh was realised by the sale of the produce, and in spite of transport difficulties which stand in the way of a wider supply, these societies are proving more and more useful in solving the difficult problem of the milk supply of Calcutta.
- (vi) The Naogaon Ganja Cultivators' Go-operative Society, Limited.—
  During the year the membership of this society increased from 3,221 to 3,617 and share capital from Rs. 33,710 to Rs. 40,670. The sale proceeds totalled Rs. 10,01,645 as against Rs. 10,84,947 in the preceding year. The slight decrease in receipts from sales was due to a fall in the demand owing to the influence of the temperance movement and also to an increase in the retail sale price. The society continued to maintain its charitable institutions.

#### (b) Non-Agricultural Societies.

These mainly fall under three groups, viz., Credit, Stores and Supply, and Miscellaneous societies.

(i) Gredit Societies.—Their number rose during the year from 186 to 223, membership from 62,070 to 72,553, share capital from 22½ lakhs to 26½ lakhs, and working capital from 83 lakhs to 97 lakhs. The Registror reports that the novel method of working adopted by the Tippera district civil court employees' co-operative relief Society has attracted notice from other parts of India. This society, with the object of promoting thrift among its members, enforces a compulsory deposit of Re. 1 a month from every member and invests the proceeds

in the longest term deposit in the Comilla Central Bank. It is interesting to find that some of the Mehtars' societies, while fulfilling the primary object of ameliorating the economic condition of their members, have been successful in combating drunkenness.

- has made no progress. Their number during the year fell from 76 to 69 and membership from 12,997 to 12,416, while the sales were reduced from 7.90 lakes to 6.69 lakes. The loss incurred during the year amounted to Rs. 32,435. The main cause of this failure seems to be inefficient management which, not unnaturally, leads to distrust and lack of co-operation among the members. The Registrar has recently published a Stores Manual, which should be useful to societies of this class. A few of them are already doing useful work. The management of small stores dealing with the ordinary necessaries of life should not present any insuperable difficulties and, if properly run, they should be of considerable benefit to their members
- which was doing good work in resuscitating the old and renowned conchshell industry of Dacca, had to be liquidated owing to the capitalistic spirit in which the society was being run. The Dacca industrial union has, however, succeeded in organising eight new societies among the Dacca couch-shell workers, and it is hoped that these societies will profit by the lessons of the liquidated society and manage their affairs in a truly co-operative spirit. Among other societies of this class may be mentioned the Madhaymagram Chican society, some of the products of which were taken to the British Empire Exhibition and found a ready sale there. Good work has been done by fishermen's and weavers' societies, and the latter have received a considerable impetus through the formation of industrial unions.

#### II.—CENTRAL CO-OPERATIVE ORGANISATIONS.

(i) The Bengal Provincial Go-operative Bank, Limited.—Satisfactory progress was made by this apex bank during the year. Its membership increased from 89 to 109, working capital from 34.73 lakhs to 36.77 lakhs, reserve and other funds from Rs. 66.238 to over one lakh, and its share capital from 3.59 lakhs to 4.57 lakhs. The amount of public confidence that the bank has now secured is shown by the fact that in spite of lower rates of interest, public deposits still continue to flow into an even larger extent than before. Satisfactory relations continue to subsist between the Provincial Bank and its constituent members, and the link between the financing of agriculture and that of trade and commerce has at last been forged by placing in the joint stock banks the surplus of co-operative money accumulated in the Provincial Bank during the slack season. Government are much indebted to Mr. S. R. Das, Advocate-General, who at considerable sacrifice of his time has held the post of Chairman of the Provincial Bank during the last two years.

(ii) The Gentral Banks.—Excluding the industrial unions the number of Central Banks increased by seven during the year. The total number of societies affiliated to these banks rose from 7,082 to 8,289, their working capital from Rs 1,51,25,775 to Rs. 1,75,06,244, deposits from non-members being Rs 1,10,21,456 against 97.78 lakhs in the previous year. The total collections from societies were 53.31 lakhs against 48.68 lakhs. The relations of the Central Banks with the village societies were generally satisfactory, but the Registrar's remarks as to the necessity of maintaining

an efficient managing staff deserve attention.

(iii) The Galcutta Gentral Go-operative Anti-malarial Society, Limited.

This Central Society has now 204 societies affiliated to it as against 116 in the preceding year, but only 33 of these affiliated societies are registered under the Act. It is reported that one of the main reasons why most of these societies do not apply for registration is the liability of registered societies to pay audit fees. In recognition of the beneficent activities of these societies which, unlike other co-operative organisations, aim at benefiting not only their members but also the general public in their tespective

localities; the Registrar exempted these societies from payment of audit fees for last year. His Excellency takes this opportunity of placing on record his high appreciation of the spirit which has prompted Rai Bahadur Dr. G. C. Chatterji to undertake the work of guiding this movement at considerable personal sacrifice.

- 4. Miscellansous.—The Bengal Co-operative Organisation Society.— This organisation continues to do nseful work, but its activities are restricted to propaganda and publicity and it does not undertake actual organisation or the supervision and control of primary societies. These functions are now vested in the Central Banks which have generally discharged them satisfactorily so far, but the combination of all these functions in a financing body is obviously not an ideal arrangement, and the feasibility of these duties being ultimately taken over by a body other than and independent of the financing authority will be examined in connection with the proposal for the reorganisation of the Bengal Co-operative Organisation Society which has been engaging the Registrar's attention.
- 5. Attitude of the public.—His Excellency the Governor notices with pleasure that the sympathy of the public with the co-operative movement shows no sign of abatement. It is, however, reported that the general public are still inclined to regard the extension of co-operative institutions as largely a matter for departmental effort. It should be realised that unless voluntary organisations take the initiative in the field of co-operative organisation, the far-reaching possibilities of the movement for the moral and economic uplift of the population of the Presidency cannot be brought within the sphere of accomplishment.
- 6. The thanks of Government are due to Rai J. M. Mitra Bahadur and Mr. Thorp for their efficient administration of the department during the year. His Excellency has noticed with pleasure the good work done by the Assistant Registrars and particularly by Bahn Susil Kumar Ganguli whose services have been specially commended by the Registrar. His Excellency also takes this opportunity of acknowledging the assistance received by the officers of the department from many non-official gentlemen who have freely given of their time and energy in furthering the progress of the movement, and also from those District and Subdivisional Officers who are reported to have given active help to the movement within their respective jurisdictions.

Secretary to the Government of Bengal.

Provided that-

(a) if a patta or lease‡ given to any raiyat, and the kabuliyat or counterpart of such lease executed by such raiyat, be presented for registration at the same time, the fee payable for the registration of the patta shall be half of what would have been payable if the putta alone had been presented, and the fee payable for the registration of the kabuliyat shall be equal to that payable for the registration of the patta;

[†] The following instructions should be followed in calculating the two years' rent: -

 ⁽¹⁾ In the case of leases for an indefinite period, the amount payable for the first ten years should be calculated and one-fifth of the said amount should give the two years' rent.
 (2) In the case of leases for a period exceeding ten years, the total amount payable for the period mentioned in the leases should be calculated and then divided by the number which represents half the said period. Thus, if the lease be for twenty years, the two years' rent would be the total rent for twenty years divided by ten.
 (3) In the case of leases in perpetuity, the rent payable for the first fifty years should be calculated and then divided by 25. This would give the two years' rent. (1'ide Inspector-General of Registration's circular No 2, dated the 9th January 1915.)

## Miscellaneous.

CALCUTTA, THE 23RD MAY 1925.

#### RESOLUTION-No. 1225 Mis.

WHILE the remission of the provincial contribution to the Central Government for a further period of three years will leave only a small surplus, it is most desirable to undertake without further delay new recurring expenditure in the Transferred Departments. In this connection the Government of Bengal have for some time had under consideration the enhancement of registration fees-a courso which was recommended by the Bengal Retrenchment Committee, who were of opinion that an immediate doubling of such fees would be fully justified. In all provinces registration fees are regarded as a legitimate source of revenue, and the Governments of Madras and Bihar and Orissa have recently raised the fees within their provinces. The Government of Bengal have, therefore, decided to raise the fees with effect from the 1sl June 1925. As it is not proposed to change the ad valorem fee under Article A of the Table of Fees under the Indian Registration Act, 1908 (XVI of 1908), in cases where the value of property does not exceed Rs. 250, the increase in the fee rates will not be felt by the poorer classes.

2. The whole of the additional income thus realised, which is expected to amount to 10 lakks during the current year and to 12 lakks in subsequent years, will be made available for expenditure on new recurring schemes in the Transferred Departments and the Bengal Legislative Council will be asked to vote supplementary grants on this account

at the next session.

ORDER.—Ordered that the resolution be communicated to the Inspector-General o Registration, Bengal, for information and for communication to District Registrars Ordered also that the resolution as well as a notification promulgating the increased rate of fees be published in the Calcutta Gazette for general information.

#### RESOLUTION.

The Government of India have read with interest the second Annual Report of the Indian Central Cotton Committee for the year ending the 31st of August 1924. The feature of the year is the progress which has been made in carrying out the Committee's research programme. In the Presidencies of Bombay and Madras, in the Central Provinces and in the United Provinces, the Committee has, by its grants, enabled valuable research work, aimed at combating diseases and pests of cotton and at improving its staple to be undertaken. The scheme for an Institute of Plant Industry at Indore, which the Committee has financed in co-operation with the Central India States, was sanctioned hy the Government of India during the year, and a much needed Central Institute for cotton research has thus been provided. Technological research on cotton is being carried on under the Committee's own control, and the Technological Research Institute at Bombay commenced work during the year under report. The Spinning Laboratory was completed towards the close of the year, and was formally opened on the 2rd of December 1924 by His Excellency the Viceroy, who also laid the foundation stone of the permanent Research Laboratory. Under the Committee's scheme for research studentships, nine graduates of Indian Universities have been appointed to studentships and are working under experienced investigators in various parts of India. The object of these studentships is to build up in India a corps of qualified research workers conversant with the technique of scientific investigation as applied to cotton problems and experienced in the methods of experimental research. The Cotton Transport Act, 1923, has been put into force in the Bombay Presidency so far as the principal long staple cotton areas are concerned, and the evidence so far received goes to show that as a result of the first year's working of the Act, the cottons of these areas have greatly improved in quality, and have commanded enhanced prices to the substantial benefit of the grower. The Committee can thus look back with satisfaction upon the progress made during the year and can face the future confident that a sure foundation has been laid for much useful work. The Government of India once more desire to acknowledge the valuable services rendered by the President, Vice-President and members of the Committee and the work of the Secretary, Mr. B. C. Burt.

ORDERED that the resolution be published in the Supplement to the Gazette of India for general information.

ORDERED also that a copy of the resolution be forwarded to the Commerce Department, Agricultural Adviser to the Government of India, and Secretary, Indian Central Cotton Committee, for information and communication to the members of the Committee.

J. W. BHORE, Secretary to the Government of India.
